**THE NETHERLANDS (WUR)**

  
CORE organic

# **Second project meeting**

***04.02.2020***

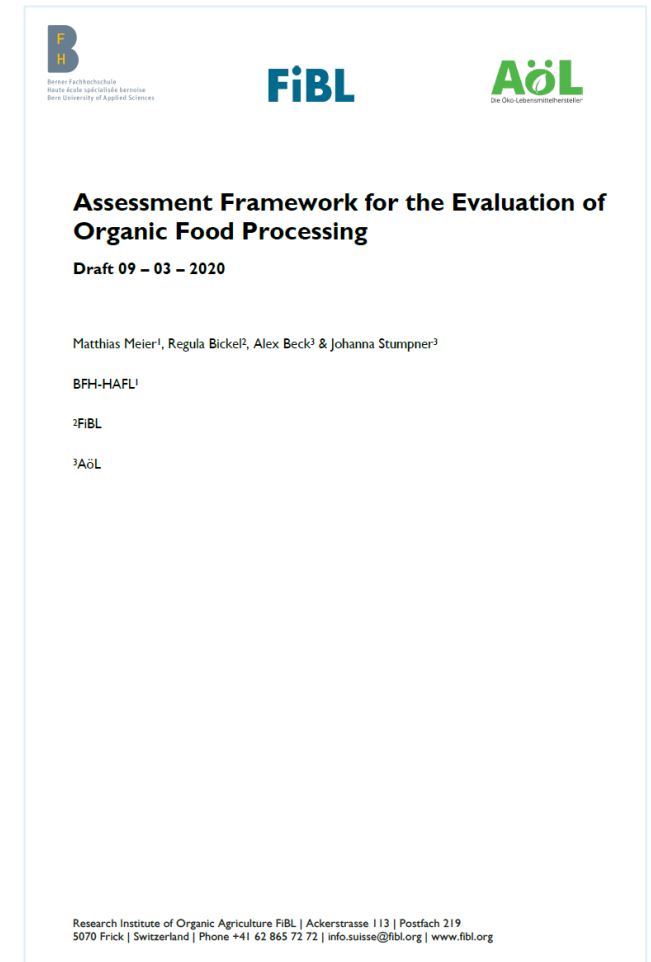

## **WP4. Assessment framework.**

*Leader: Regula Bickel*

*In cooperation with  
Johanna Stumper and Alex Beck  
Matthias Meier*

# Current status

- Assessment Framework (AF) draft 09-03-2020:
  - provides a structured process to evaluate new processing technologies to be in line with organic principles
- Presently tested in case studies
- Final revisions based on experiences and feed- back from case studies → final version

## Further needs

For the revision of the AF we need the results of the case studies

- Open questions for a successful implementation of the AF during the case studies (continuous improvement!)
- Overview of the case studies (company, product and technology comparison, time planning)
- Please provide feedback directly in the AF-Word document using track changes

# Next steps - independent of case study feedback

## 1. Further revisions AF:

- Step 1.2: Ment to be a preliminary criteria assessment only
- Actual assessment done under Step 2
- Seems to be unclear to most readers / will be made more transparent

## 2. Preparation of guidance documents on how to apply the AF as supplements for the Code of Practice (AF as Core of the CoP!)

- e.g. how to conduct a preliminary assessment under Step 1.2
- how to choose indicators, etc.

# Planning of next steps

Deliverables: According to the original time plan:

- |                                                                   |            |
|-------------------------------------------------------------------|------------|
| 1. Summary report of feedback on AF from case studies by KU (WUR) | April 2020 |
| 2. Based on the report: Final AF                                  | Dec 2020   |
| 3. Scientific paper on AF: manuscript prepared                    | Dec 2020   |

New time plan:

- Over all feedback from the case studies until the end of October, latest mid of November 2020

# new leader!

I will be retired definitively end of july!

Ursula Kretzschmar will take over the lead of WP 4
