

CORE organic

ProOrg project on-line meeting
4th of June, 2020

Sari Iivonen
Finnish Organic Research Institute
Natural Resources Institute Finland (Luke)

Representing CORE Organic Cofund funding
bodies as monitoring person for SusOrgPlus,
ProOrg and ProRefine

Presentation outline

- 1. Mid-term report evaluation**
- 2. Communication and dissemination activities**
- 3. Proposed extension of the CORE Organic Cofund programme**

Mid-term report evaluation

- On-line monitoring meeting involving discussion and approval of the report was organised **5th of February 2020**.
- Report was very well written and it was approved with some recommendations. Thank you all for your contribution!

Given recommendations:

1. Include scientific publications in dissemination plans, since you have plans.
2. Update Inra as Inrae in your communication material.
3. Try to **promote dissemination of results also to the policy makers** in order to increase their understanding how they could consider **new technological opportunities of processing in relation to new organic regulations**.

Project dissemination

- Ensure that the new results are disseminated to the end-users and stakeholders. Active communication is key in the impact creation.
- All project publications and relevant material are to be uploaded in **Organic Eprints Archive**: <http://orgprints.org/>
- CORE Organic Cofund (229)
 - BioVine (16)
 - Domino (30)
 - FreeBirds (9)
 - GrazyDaiSy (25)
 - GreenResilient (15)
 - Mix-Enable (18)
 - POWER (16)
 - ProOrg (7)
 - ProRefine (5)
 - ProYoungStock (8)
 - SUREVEG (55)
 - SusOrgPlus (25)

ProOrg has uploaded 7 publications so far (3.6.2020). Please, be active in uploading published material in the course of the project.

There is no need to wait for the official reporting time!

During the project period, the CORE Organic projects are responsible for documenting project results, recommendations, impacts etc.

Below you find the CORE Organic templates for reporting and dissemination:

- › [Template: Mid-term report - for the CORE Organic Cofund funded project](#)
- › [Template: Practice abstracts](#)
- › [Template: Dissemination plan](#)
- › [Template: Guidelines for CORE Organic Cofund project dissemination \(website & leaflets\)](#)
- › [Template: How to submit a contribution to the CORE Organic newsletter](#)

Guidelines for Organic Eprints:

- › [How to upload a project description for CORE Organic Cofund projects to Organic Eprints](#)

CORE Organic Cofund's timeframe?

- We have proposed to **extend programme period by 6 months** because of Covid-19 situation. An updated extension request was sent on 15 May 2020 via EC Portal and it was acknowledged on 18 May by the Project officer. **We haven't received any answer from EC yet.**
- **It is not certain when we will have the EC response.** Until then we have the rule that only 36 months of implementation is allowed. **Therefore, ProOrg's ending date is still the original one.**

Thank you and have a nice summer!
